## ABOUT

The Basket Club began with a journey to Marrakech in 2001. Enchanted by the city's unique spirit and the breathtaking backdrop of the Atlas Mountains, we discovered the centuries-old tradition of handwoven baskets.

Crafted almost exclusively by local women, each basket tells a story of patience, heritage, and exceptional craftsmanship. Inspired by this tradition, we set out to transform an ancient craft into contemporary fashion—creating timeless pieces that celebrate authenticity, simplicity, and effortless style.

Handmade in Morocco.  
Designed for everywhere.
